2023 - 2 Months

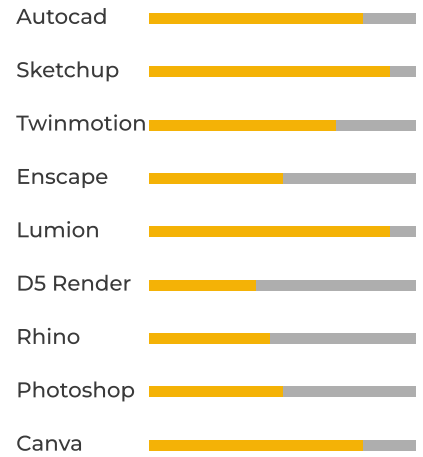

EDUCATION

Interior Architect
Mimar Sinan Fine Arts University
Second-Year Student
Current GPA: 3.12
2022 - Present

PROFILE

I am studying Interior Architecture at Mimar Sinan Fine Arts University. Since childhood, I have been interested in drawing and design. Towards the end of high school, I decided to study interior architecture and began learning relevant programs to improve my drawing skills. After being accepted into Mimar Sinan Fine Arts University, I dedicated myself to further development with the guidance of my professors. At the end of my first year, I completed a 2-month internship in interior architecture. During this short period, I gained a significant amount of knowledge and thoroughly enjoyed developing my skills. Currently, I am learning and using relevant programs to develop projects at school. I love improving myself, learning new things, identifying and correcting my mistakes, and I am passionate about interior architecture.
